

I am opposed to the renewal of Sinclair Broadcasting's Dayton OH licenses for forcing their local stations (WRGT, Fox 45 and WKEF, ABC 22) to air a blatant attack on presidential candidate John Kerry thinly disguised as a documentary "Stolen Honor: Wounds That Never Heal". It is well known the ownership of Sinclair Broadcasting strongly supports the Republican incumbent. Besides monetary donations to the President's re-election effort - to the maximum legal limit - they also ordered their local stations not to air a tribute to the American soldiers killed in Iraq, fearing political damage to the President. Unless Sinclair Broadcasting were to air an equally pro-Kerry piece, Going Upriver, or a documentary that presents a damning view of the current administration, Fahrenheit 9/11, their actions must be considered a blatant violation of the public trust and an egregious misuse of the public airwaves. Thank you, Glen Clark, Dayton OH
